

January 12, 1999

LONG LAKE - LAKE ASSOCIATION

Minutes of Meeting

Meeting was called to order by Donovan LeDoux (president) at 7:00pm on Monday, January 11, 1999 at the Loon's Nest Cafe in Vergas.

In attendance where: Donovan LeDoux (President)
 Chuck Hillstrom (Section Rep)
 Deb Moltzan (Section Rep)
 John Thiesen (Section Rep)
 Rick Lewis (Section Rep)
 Pam Lewis (former Sec/Tres)

Donavan gave the treasury report - \$733.36 - approved

Donavan handed out information pamphlets to all present. He also went over the previous committees that were suggested, newsletter, water monitoring etc and it was agreed we need alot more volunteers from the association to help.

Discussed Lake Assesment Program, Septic Tank Pumping, the water testing results from 1998 and the Inlet study. There was a suggestion about getting the local MPCA to test and look over the past records regarding the draining of the inlets into the lake. The main concern was the city sewage lagoon.

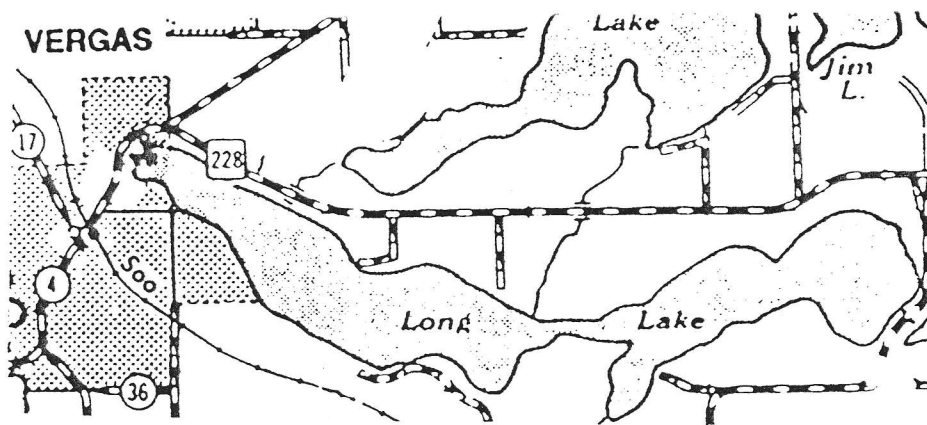

Jerry Bennett has composed a letter with recommendation letters for the Lake Assesment Program. They will be choosing the lakes to be tested soon. Donovan was waiting for the Mayor of Vergas to send his recommedation letter and will mail the packet of information at that time. It looks like Long Lake has a good chance.

Mr. Bennett has put alot of hard work and personal time on this Assesment Program letter and definitely needs a big Thank You.

The next Board of Directors meeting is set for April 19th, 1999 (Monday) for a husband/wife dinner at Spanky's on Rose Lake (providing they are open).

The Annual Association picnic was set for June 27, 1999, at the shelter in the city park.

Meeting Adjorned at 8:15pm.

Vergas LONG LAKE - LAKE ASSOCIATION is a group of people concerned with preserving the resources of Long Lake thru:

The main activity if the Lake Association is testing of the lake water for phosphorous and chloraphyll regularly to monitor the condition, then determine the source of pollutants and how to prevent them.

We feel it is important to stay informed about the quality of Long Lake and promote protection of its wildlife and other economic, environmental and recreational issues.

The Association is a member of the Otter Tail County and Minnesota State Lake Associations.

If you would like to support the Association and become a member, please fill out and return the form below. As an additional benefit of your membership you may subscribe to the MLA Reporter and receive 8 issues for only \$10.00. This is the official publication of the Minnesota State Lake Association. Thank you.
